

ALL SAINTS' ECO-BULLETIN Issue2 Recycling

[Terracycle.com](https://www.terracycle.com) recycles almost any form of waste by partnering with individuals, major consumer product companies, retailers, manufacturers, municipalities, and small businesses across 20 different countries. Millions of pounds of waste is diverted from landfills and incinerators each month.

If you run or work for a business maybe you or they would be interested in purchasing a box to recycle a particular waste product.

Many schemes are free, sponsored by companies & on the following two pages is a list of local or nearby sites for recycling that is not taken by Bradford Council. Most are in commercial premises and are available in working hours, others are available 24hr & this is indicated if so.

NB. The acceptable waste for some schemes is very specific, so please note what is NOT accepted. No scheme will accept cardboard, plastic bottles, glass bottles or aerosols, all of which are collected in Bradford's kerbside waste collections. Some schemes will accept only particular brands, others will accept all brands. Where different waste product can be taken to the same collection point, please ensure that they are in separate receptacles.

The list is up-to-date at the time of writing (May 1st) but schemes are added & some do get taken off. You can check the current situation on the Terracycle site. If you find anything has changed or is incorrect or if you know of other recycling schemes please let us know.

Milestone Design, the kitchen showroom on Leeds Road is doing a sterling job as a recycling collection point, being part of several different Terracycle schemes. Julian & Simon are extremely committed to this but as more people are recycling, they are struggling to keep up and the small kitchen design showroom often looks more like a recycling centre. Whilst they want to continue all the recycling, they desperately need help with sorting & packing in order to keep up with the demand.

Please consider if you could give them a small amount of time each week, fortnight or month or even ad hoc. They really want to keep the recycling facilities going but they have a business to run (designing & fitting eco-kitchens with many products made from recycled products). If you do not wish to be in the showroom due to concern about Covid, you could collect recycling to sort & pack at home.

If you can help please ring the showroom or chat whilst dropping off your recycling if you could help.

PEAT FREE COMPOST UPDATE

The Wildlife Trusts of the UK are running an online petition for the government to act on banning peat-based composts. Please visit [Wildlifetrusts.org](https://www.wildlifetrusts.org) if you would like to support this.
